

Backend Summary for /Users/vibhuthanki/Downloads/democratize-ai-backend

script.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/script.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

utils.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/utils.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

main.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/main.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

config.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/core/config.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

security.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/core/security.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/core/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

user.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/user.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

links.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/links.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

model.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/model.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

dataset.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/dataset.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

training_run.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/training_run.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

project.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/models/project.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

user.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/user.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

token.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/token.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

model.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/model.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

dataset.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/dataset.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

training_run.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/training_run.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

msg.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/msg.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

project.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/schemas/project.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

seed_models.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/scripts/seed_models.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

crud_project.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/crud_project.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

crud_dataset.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/crud_dataset.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

crud_user.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/crud_user.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

crud_training_run.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/crud_training_run.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

crud_model.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/crud/crud_model.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

session.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/db/session.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/db/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

base.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/db/base.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

deps.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/deps.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

api.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/api.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

auth.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/auth.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

models.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/models.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

users.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/users.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

datasets.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/datasets.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

projects.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/projects.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

training.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/api/v1/endpoints/training.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/app/services/__init__.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

init.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/tests/___init___py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

env.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/alembic/env.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

6c3d89989852_add_model_dataset_training_run_tables.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/alembic/versions/6c3d89989852_add_model_dataset_training_run_tables.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.

21a3efa0832c_add_user_and_project_tables.py

Path: /Users/vibhuthanki/Downloads/democratize-ai-backend/alembic/versions/21a3efa0832c_add_user_and_project_tables.py

Error summarizing: 404 models/gemini-pro is not found for API version v1beta, or is not supported for generateContent. Call ListModels to see the list of available models and their supported methods.
